

Project Initialization and Planning Phase

Date	3 July 2026
Team ID	xxxxxxx
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Farmers often struggle to choose the right crop because of changing soil and climate conditions. This results in poor yields, resource wastage, and financial losses. The OptiCrop Smart Agricultural Production Optimization System uses machine learning to analyze soil and environmental parameters and recommends the most suitable crop, helping farmers improve productivity and adopt sustainable farming practices.

Example:

 Problem Statement (PS)	 I am (Customer)	 I'm trying to	 But	 Because	 Which makes me feel
---	--	--	--	--	--

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer who wants to grow the best crop.	Select the most suitable crop based on my soil and weather conditions.	I don't know which crop is best for my land.	I lack accurate information about soil nutrients and climate suitability.	Uncertain about my farming decisions and worried about low crop yield and financial loss.
