Customer Journey Map

The Customer Journey Map illustrates the step-by-step experience of a farmer while using the OptiCrop Smart Agricultural Production Optimization System. It highlights the user's actions, interactions, thoughts, and emotions from identifying the crop selection problem to receiving AI-based crop recommendations. This helps in understanding user needs, improving the overall experience, and designing a more efficient, user-friendly, and reliable agricultural recommendation system.

Phase of Journey	Stage1: Problem Identification	Stage 2: Using OptiCrop	Stage 3: Decision & Result
Actions	- Checks soil and weather conditions. - Looks for crop information. - Wants expert advice.	- Opens the OptiCrop application. - Enters soil and climate details. - Clicks Predict.	- Views the recommended crop. - Plans cultivation. - Starts farming.
Touchpoint	- Soil testing center. - Agricultural officer. - Internet/YouTube.	- OptiCrop web application. - Prediction page. - ML recommendation system.	- Crop recommendation report. - Farming plan. - Harvest monitoring.
Customer Thought	- Which crop is best for my land? - Will I get a good yield?	- I hope the recommendation is accurate. - Is my input correct?	- This crop seems suitable. - I can improve my profit.
